

# ABDULHALIM GHERRA

## WEB DEVELOPER

### PROFILE

I am a Frontend Web Developer specialized in building modern, responsive, and high-performance web applications using React, TypeScript, and modern CSS frameworks. I have hands-on experience developing real-world projects including booking systems, authentication, and role-based dashboards. I am passionate about clean code, UI/UX, and creating digital products that solve real problems.

### WORK EXPERIENCE

#### Scramble bit

2023-2024

Front-End

- Completed an intensive front-end training program focused on HTML5, CSS3 (Flexbox & Grid), and modern JavaScript (ES6+).
- Built responsive and accessible user interfaces with clean, maintainable code.
- Practiced cross-browser compatibility and mobile-first design principles
- Collaborated on small web projects to enhance skills in layout design, styling, and interactivity
- Gained hands-on experience in using Git for version control and improving web performance

### PROJECT

#### EAK-Smart Accommodation Booking Platform:

- User authentication and role-based access (Admin, Host, Guest).
- Property listing with images, location, and pricing.
- Real-time booking and availability system.
- Review and rating functionality
- Responsive and modern user interface

#### Massaya Hanin Salon Website:

- Responsive and mobile-friendly design
- Bilingual interface (Arabic & Turkish)
- Dynamic booking system connected to WhatsApp Practiced.
- Service filtering and search
- Organized components and clean architecture
